Security Notice to Parents & Guardians

At this time, all information (scores and test content) displayed in the Parent Portal is confidential and embargoed, meaning it may only be shared with you and your student. All test content is secure. This information cannot be printed, photographed, texted, emailed, discussed, or shared with anyone, including members of your local school board, media, or school staff.

This Quick Guide provides instructions on how to access and navigate the Parent Portal.

Step 1: Have Your Claim Code Ready

A Claim Code is required to access your student's test results. Your confidential, personalized Claim Code is provided to you by your student's school. If you have not received your Claim Code, contact your student's school. The Parent Portal Log In page can be accessed at <https://results.pearsonaccessnext.com/login> through a standard desktop, laptop, tablet, or smart phone browser.

Step 2: Create an Account or Log In

If you do not already have an account, you must first create one by selecting **Sign Up** on the **Log In** page. After you select **Sign Up**, you will see the **Create Account** page. Create your Parent Portal account by entering **your** First Name, Last Name, Email Address, and an initial Password. Passwords must contain a minimum of 8 characters and include at least one upper case letter (A-Z), one lower case letter (a-z), and one number (0-9). For security purposes, after you select **Create Account**, you will immediately receive an email at the address you entered that contains a link to confirm your account.

If you have already created an account for access to ISTEP+ results from a previous administration, the same account can be used to access your student's Grade 10 or ECA Retest results.

Please note: If you do not immediately receive the system generated email message, check your email spam folder or junk folder. If the email does not arrive in your inbox and is not in your spam folder, you may need to check with your Internet service provider, as some providers filter out these kinds of messages before they reach your email inbox.

After you confirm your account in the email link, you will be taken back to the **Log In** page.

To Log In, enter your Email Address and Password and select **Log In** to access the Parent Portal.

If you do not have an email account, please contact your student's school. School representatives may, with your authorization, assist you in accessing your student's results.

Note: After you have created your account, if you forget your password or mistype it, please select the link, **Forgot password?** You will be prompted to enter your email address and an email will be immediately sent to you with a new link to reset your password.

Step 3: Enter Your Student's Information

After logging in, you will see the **My Students' Test Results** page. On this page, you will enter **your student's** specific information in order to retrieve their results. This includes: Student's First Name, Last Name, Date of Birth, and unique Claim Code. Each field must be entered exactly as it was provided to you. Claim Codes are case-sensitive. The Date of Birth field may change depending on which browser you are using. The examples below are using Chrome.

After all fields are complete, select **Find Results**.

Note: You may enter information for more than one student using the same Parent Portal account. Each student will have a different Claim Code for each administration provided to you by his or her school.

Step 4: Review Your Student's Test Results

1. Your student's test results for each ISTEP+ assessment he or she participated in will be displayed.
2. On the **My Students' Test Results** page, select the student's name to review his or her assessment results detail and his or her score for each open-ended item for the selected test.
